## Chinese Numbers

Here are the Chinese Characters for the numbers 1-10. Although Chinese people understand and use the Arabic numbers, 1, 2, 3 etc, the characters are quite simple and very useful!

one  
yī

two  
èr

three  
sān

four  
sì

five  
wǔ

six  
liù

# 'Ik schrijf een eigen (code)taal!'

Bedenk zelf een karakterteken voor 'vis'.

A grid of 12 rows and 10 columns of boxes for writing a code character for 'vis'. Each box is a square with a dashed diagonal line from the top-left to the bottom-right, and a solid diagonal line from the top-right to the bottom-left, forming an 'X' shape. The grid is intended for students to draw their own character for the word 'vis'.
